OptiMantra

Case Study

What is Optimantra?

OptiMantra is online practice management software designed to facilitate interaction between wellness seekers and providers. The HIPAA-compliant software handles both administrative and management functions while also providing research and diagnostic tools to practitioners. Patients are provided with tools to access appointment requests, intake forms, refills, referrals, personal health records, and documents.

The software is used by acupuncturists, Ayurveda specialists, chiropractors, homeopaths, MDs, naturopaths, nurse practitioners, osteopaths, TCMs, and more.

OptiMantra is operated from Washington, District of Columbia.
