# Case Study

*Storage Manager*

# What is StorageManager?

StorageManager application enables storage managers to keep track of dispatchment of inventory between Storages.

# Tech Stack & Category

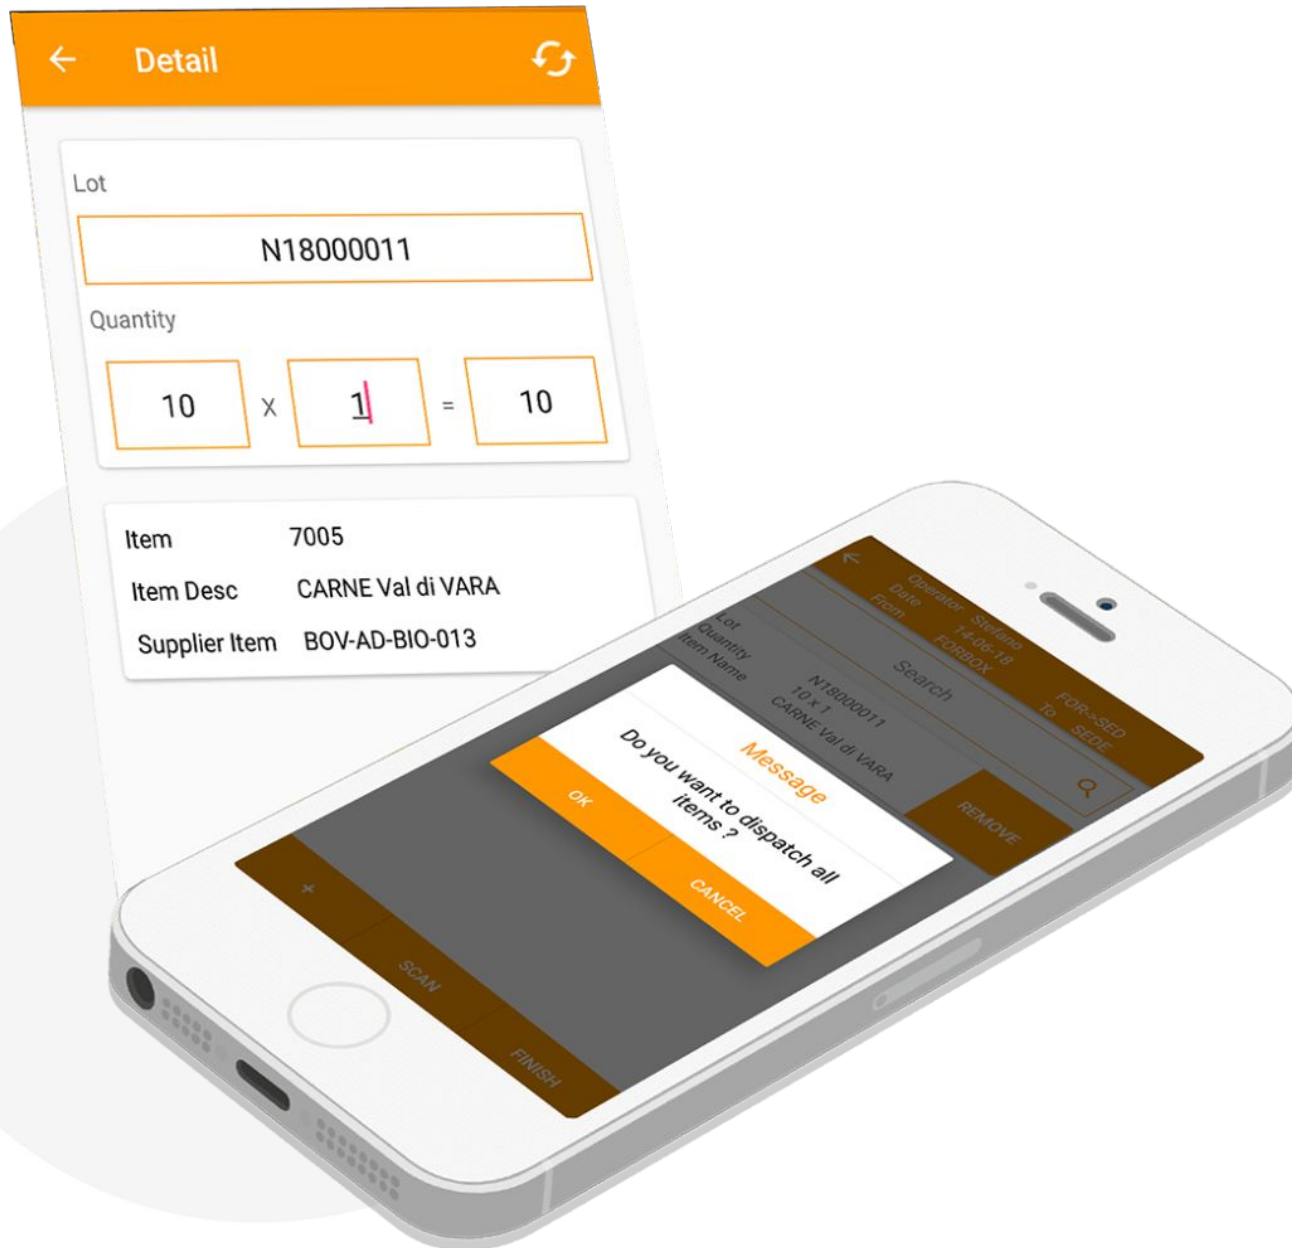

## Technologies

1. Java 8
2. Python 2.7
3. Maven 3.5.3
4. Cassandra 3.11.2
5. Spring Boot
6. AngularJS 1.x
7. Hibernate

## Category

Media & Entertainment

# Key Features

- GPS tracking of device
- Barcode scanner using zebra sdk
- Offline usage capability
- Interactive user experience

# How it Works?

Storage manager will have to select Operator who owns the storage and storage from which dispatch is to be processed. Security is enabled using pin authentication start dispatch screen.

User will have to go through List of available inventory to select from, user will have to insert quantity for inventory, user can select inventory using zebra SDK barcode scanner. User will confirm destination operator through available operators and send the dispatch before processing next dispatch.

**Thank You!**
